

Invitation to Best-Practice-Workshop Magnetic-Coupled-Pumps

Target group:

This workshop is for all employees of maintenance and production, who are working with magnetic coupled DICKOW Pumps, including operation, installation, maintenance and repair. Because of the individual training, there is a maximum of 15 participants allowed.

Contents:

- Magnetic coupled centrifugal, multistage and side-channel-pumps
- Application area and operational behaviour of centrifugal and side-channel-pumps
- Installation options and practical advice for commissioning
- Monitoring options
- Determine causes for failure, damage analysis and valuation
- Influences and consequences of improper commissioning
- Practical demonstration on different types of pumps
- Variations and special design pumps
- Dismounting and assembling of magnetic driven pumps and helpful tools
- Installation and commissioning mistakes and consequences
- Preventive maintenance
- Answering customer specific problems

Duration and location of workshop:

Start: Tuesday 02.11.2021 8:00 a.m.
End: Wednesday 03.11.2021 4:00 p.m.

DICKOW PUMPEN GmbH & Co. KG
Siemensstraße 22
84478 Waldkraiburg

Fee:

The participation fee of EUR 890,00 for the first person and EUR 750,00 for every additional participant of the same company, includes training, lunch, refreshments, dinner and complete training documents.

Good to know:

After your booking, you will receive an instruction on how to reach the location and a hotel recommendation.
